CHIT THWAY

Computer Science Graduate | Software Engineering | Full-Stack Development

Perth, WA | chitthway67@gmail.com | Portfolio | LinkedIn | GitHub

PROFESSIONAL PROFILE

Recent UWA Computer Science graduate with hands-on C#/.NET and React/TypeScript experience. I build and maintain live web applications and completed a remote web development and QA internship at Concise Digital. I enjoy turning requirements into working features, investigating bugs and improving software through testing and feedback. Seeking graduate and junior software development roles.

SKILLS

Development: C#, .NET 10, ASP.NET Core MVC, Entity Framework Core, React, TypeScript, JavaScript, HTML/CSS, Python and SQL/PostgreSQL

Cloud and delivery: Azure App Service, Cloudflare Pages/Functions, D1, Drizzle, GitHub Actions CI/CD, Git/GitHub, REST APIs and WordPress/Twig

Testing and tools: xUnit, Playwright, unit, integration and browser tests, MantisBT, regression checks, technical documentation, Cursor and Codex

EXPERIENCE

Concise Digital — Web Development & Quality Assurance Intern **Apr–Jun 2026**

- Contributed to real client websites in an unfamiliar web stack, learning existing WordPress, Twig/PHP and QA workflows quickly enough to deliver useful work during a ~100-hour remote internship.
- Investigated and reproduced defects, documented clear evidence and expected/actual behaviour in MantisBT, retested fixes and communicated findings with developers.

Crown Events & Conferences — Banquets & Events Waitperson **Jan 2023–Present**

- Built almost four years of customer-facing experience serving large events, VIP guests and high-profile stakeholders while communicating clearly and maintaining professionalism under pressure.
- Work across changing teams and priorities in live environments, resolving practical problems quickly and coordinating with colleagues to deliver a consistent guest experience.

4LifeSkills — Policies and Procedures Intern **Nov–Dec 2025**

- Reviewed policies and procedures against NDIS and legislative requirements, turning complex information into clearer training slides and knowledge checks.
- Worked in a disability-support organisation alongside staff and people with disability, strengthening respectful communication, process awareness and attention to accessibility.

SELECTED PROJECTS

Job Application Tracker — Full-Stack Web Application **2026**

- Designed, built and deployed myjobtracker.com.au, a live multi-user application with public registration, authentication, private user records and browser-assisted job capture.
- Implemented ASP.NET Core/.NET 10, EF Core, PostgreSQL, Azure App Service and GitHub Actions CI/CD, with a Chrome extension, health checks and 200+ unit, integration and browser tests.

Live: myjobtracker.com.au | Public repository

StudySpot Perth — Full-Stack Library Finder **2026**

- Built a Perth library finder using React and TypeScript, with location-based ranking, date/time and facility filters, Google sign-in and saved-library preferences.
- Implemented Cloudflare Pages/Functions, D1 and Drizzle, Better Auth and protected admin editing, preview and publishing workflows; automated checks cover APIs, data, permissions and routing.

Live: StudySpot Perth | Public repository

Personal Portfolio Website — React and TypeScript **2026**

- Designed and deployed a responsive portfolio using React 19, TypeScript, Vite/Vinext and Cloudflare, with dedicated project case studies, demonstrations and reusable components.
- Added automated build and testing checks, accessibility improvements and data-driven content, with responsive layouts that help employers explore the work and reasoning behind each project.

EDUCATION

The University of Western Australia — Bachelor of Science (Computer Science) **Mar 2022–Jul 2026**

- Broad computing foundation across software development, networking, web systems, databases, graphics, algorithms and systems, complemented by substantial independent technical projects.
